MEMORANDUM FOR IMCOM – USAG Stuttgart, Directorate, Emergency Services
(DES)

SUBJECT: Expiration of Privately Owned Vehicle Registration/Plates

1. References.

a. AE Regulation 190-1, Driver and Vehicle Requirements and the Installation Traffic Code for the U.S. Forces in Germany.

b. Correspondence (email) between the USAREUR Provost Marshal and the USAG Commander, 3 September, 2020 detailing discussions/guidance on providing privately owned vehicle (POV) registration extensions during the COVID-19 period.

2. Overview. A recent positive COVID-19 episode at the USAG Stuttgart Field Registration Station (FRS), has caused the FRS to adjust their operations. Until further notice, only limited operations/services will be provided. To assist the Stuttgart Military Community, the USAREUR Registry of Motor Vehicles (RMV) extended the registrations of all privately owned vehicles (POVs) that were due to expire (2-17 Sep). The registrations have been extended by thirty days. This means if a POV registration was due to expire on 6 SEP, it has been extended within the Vehicle Registration Network (VERINET) to show the new expiration date of 6 OCT. Associated fuel cards should not be affected.

3. Current Operations. It is recommended POV owners effected by these recent extensions keep a copy of this memorandum in their POV in the event they are stopped by Host Nation Police. Host Nation Police can contact the Stuttgart Military Police Desk @ 49(0)7031153102/3095 to verify the status of the POV registration.

4. Coordination. This memorandum was coordinated with the IMCOM-E DES (Mr. Steve Watts). The undersigned will provide clarification of the information provided, upon request at shawn.t.driscoll.naf@mail.mil or 49(0)6111435422002.

SA T. Dr

Shawn T. Driscoll
Deputy Registrar
