Europe Wide Reduction in Dental Care

- **Primary Goal:** To ensure our sterilization parameters are MIFU compliant to resume over all mission of providing dental treatment to service members on active-duty orders for 30 days or more.
- ICE Comments are encouraged.
- **Limitations: Available services are dental exams, cleanings, emergency treatment as diagnosed by a Dentist, and limited restorative care.**
- **Operational hours: 0730-1630 Lunch : 1120-1220**
- **Sick Call Hours : 0720-0900**

• Facility / Service Closures or Changes

• There is a Europe-Wide reduction in dental care to standardize sterilization processes ordered by BG Giraud of MRC EUR/DHA EUR. Currently we can only offer dental exams, limited cleanings, emergency treatment as diagnosed by a Dentist, and limited Restorative dental care prioritized by dental readiness classification. We understand the frustration and inconvenience this causes but are bound by the directive of our Commanding General. We anticipate regular services will ramp up over the next 6+ months. Defense Health Agency has not approved any alternative treatment location on the economy to be covered by the government. Please Provide Feedback through ICE and include the major interruptions and/or health risks you experience from interruption of service. If you feel your dental needs have unique urgency not understood by our administrative staff, please request to speak with the Dental Clinic Commander, LTC Johnson.

• Other Items of Community Interest

- All command sponsored active-duty family members should establish dental care within the community by utilizing the TRICARE Dental Plan. Contact United Concordia at (844) 653-4060 to enroll. Wait times for new patients on the economy can be long, so family members should establish a dental home immediately upon arriving in Germany.
- Readiness: The accuracy/efficacy of readiness status has proven less than excellent between MHS Genesis and MEDPROS . We understand that some readiness numbers feed into service-specific systems that we do not have visibility on. If you are a unit leader tracking readiness and are finding systematic issues or need solutions to improve dental readiness, please feel free to reach out to LTC Johnson.
